### Cuplex Gel

Cuplex Gel

Salicylic acid and lactic acid for the topical treatment of calluses, corns, verrucas and warts.

- **Code** NV0065
- **Size** 5g

---

### Bazuka Extra Strength

**Extra strength treatment for verrucas and warts**

- Uniquely formulated extra strength treatment
- Dries to form a water-resistant, protective barrier
- Designed to inhibit spread of the verruca/wart infection
- No plasters necessary
- Strong, once-daily application

Helps to break down and remove verrucas, warts, corns and calluses. Extra strength formulation.

- **Code** NV5152
- **Size** 5g

---

### Duofilm Wart Treatment

Duofilm Wart Treatment

- **Code** NV0174
- **Size** 15ml

Duofilm wart treatment is a simple and easy to use solution to treat warts, through the corrosion of keratin. Recommended for use on warts only, avoid use on normal skin.

Children under the age of 12 should be supervised by an adult.

---

### Verrugon

For the treatment and removal of verrucae.

The pack contains verrugin ointment (6g), adhesive rings (x9), plasters (x9), and an emery board to assist in ensuring correct application of the ointment. The ointment should only be applied direct to the verruca.

**Caution:** Cannot be used by Diabetics.

- **Code** NV0375
- **Size** 6g
Pharmaceutical Product Classification:

The sale of certain pharmaceutical products are subject to the following classifications and are highlighted throughout this section. Products in this section are available to the public, unless otherwise stated.

**P** Pharmaceutical Products: These products can NOT be sold to members of the General Public. However, they may be used by HPC Registered Practitioners to treat their patients.

**Lamisil Once**

Lamisil Once - single dose Treatment for athlete’s foot 1% cutaneous solution terbinafine hydrochloride. Lamisil once is a single dose treatment for athlete’s foot. The clear solution is applied only once. It releases the active ingredient into the skin where it continues to fight the cause and relieve the symptoms of athlete's foot. At 3 months after treatment with lamisil once, the incidence of relapse or reinfection is low.

Avoid contact with eyes. Do not swallow. Not recommended for patients under 18. Do not use while breast-feeding.

Keep out of reach and sight of children.

Store in the original pack. For cutaneous use.
